WEB DEVELOPER

Ladera Ranch, CA, 92694

WORK EXPERIENCE

Web Developer, Site Transition. Ladera Ranch, California — 2018

- Build customized frontend with **ReactJS**, **HTML/JavaScript**, and/or **WordPress**.
- Manage **MySQL** tables and debug backend in **Laravel**, **CodeIgniter**, Vanilla **PHP**, and **NodeJS**.
- Quote clients on expected work hours and meet hard deadline.

Intern, Parapxl Corp. Irvine, California — 2018

- Access **WordPress REST API** with axios, for a live entertainment site, to use as a decoupled CMS.
- Recreate the frontend with **ReactJS** and **CSS**.

PROFESSIONAL SITES

Advanced Regenerative Medicine - www.southbayarmcenter.com/
- this WordPress build helped solidify my understanding of WPBakery by creating the site

Alpen Storage - www.alpenstorage.com/
- manage any customer requests and changes to site such as adding pop-ups, customizing the rev slider, creating any new sections, and debugging any issues.

Hyperion Public - www.leftofrightmedia.com ***Not Launched Yet***
- built the React frontend and setup an easy to customize menu using WordPress and Advanced Custom Fields to create a decoupled CMS

Seenfire - www.seenfire.com
- created frontend with React, added animations and responsive video components

Small Group Network - www.smallgroupnetwork.com
- create pages and layouts to match customer's requests, add and update any needed plugins, update sections to keep teams and slides relevant.

EDUCATION

California State Polytechnic University, Pomona — Business Administration

LearningFuze, Irvine, CA —Advanced Web Development Program 1000+ hours of learning HTML, CSS, Javascript, and ReactJS in a developer environment

STRONG
- JavaScript
- ReactJS
- jQuery
- HTML5
- CSS3
- BootStrap
- Sass
- WordPress
- Git

EXPERIENCED
- PHP
- MySQL
- Redux
- Firebase
- Laravel / Homestead
- Vagrant / Virtual Box
- NodeJS / Express
- CodeIgniter
- MongoDB
- Amazon Web Services

HOBBIES
I enjoy building and painting highly detailed models. I have recently delved into airbrushing to improve efficiency and provide smooth color transitions.
